MiSHE

The Michigan Society for Healthcare Engineering

An advocate and resource for healthcare information in engineering and facilities management for more than 450 members, the Michigan Society for Healthcare Engineering (MiSHE) is the best professional group for hospital engineers and facilities managers in Michigan.

MiSHE is affiliated with the American Society for Healthcare Engineering (ASHE) which is a member organization of the American Hospital Association (AHA) and an asset to the healthcare field since 1956. These affiliations help you meet the challenges and opportunities that encompass many functional areas, listed at the right.

Whether you are directly involved in or simply interested in these functional areas, MiSHE membership provides advantages that will help you reach new levels of success.

- Facilities management
- Energy management
- Real estate services
- Support services
- Building maintenance
- Environmental infection control
- Safety
- Technology management
- Plant engineering
- Healthcare design
- Security
- Waste management
