An advocate and resource for healthcare information in engineering and facilities management for hundreds of members, the **Michigan Society for Healthcare Engineering (MiSHE)** is the best professional group for hospital engineers and facilities managers in Michigan.

MiSHE is affiliated with the American Society for Healthcare Engineering (ASHE) which is a member organization of the American Hospital Association (AHA) and an asset to the healthcare field since 1956.

Get It

Reach Out

Tap into a wealth of collegial information online with MISHE Groups, or use “Yak” to contact your peers. Network with other MISHE members face-to-face at regional and state meetings and fun events.

Add Your Voice

Get a handle on codes and standards issues that impact healthcare facilities. Gain input with organizations like TJC, CMS, NFPA and other regulators. Ask questions, and get answers.

Advance Your Career

Get recognition for your accomplishments — and receive support for new ideas, process enhancements, equipment operation and purchase information.

Expand Your Knowledge

Stay up to date with the E-Newsletter and Dispatch. Get in-depth information on important topics at the Annual Conference, and get even more through free member seminars and training opportunities.

Additionally, MiSHE members can take full advantage of MECH, a nationally recognized certification for healthcare maintenance mechanics.

Get To It

Join the team of healthcare professionals working for the benefit of all healthcare institutions throughout the state. Professional membership is \$25 per year; Associate membership for businesses and vendors is \$100. **Sign up at www.mishe.org**
